ACCESSORIES AND PERFORMANCE PARTS

YOUR JEEP. YOUR ADVENTURE

Rugged Ridge® is synonymous with quality Jeep® parts and accessories. As a brand from OMIX®, an industry leader in Jeep restoration and replacement parts, Rugged Ridge is a household name among Jeep and off road enthusiasts. With over 3,000 products developed and manufactured to date, Rugged Ridge continues to add hundreds of new products each year to satisfy the off road enthusiast's desire to personalize their Jeep. Over the past ten years, Rugged Ridge has developed many unique and patented items that set us apart from other manufacturers in the market. Items like the Modular XHD bumpers, modular snorkel, X-Clamp, Hurricane fender flares are just some of these. Tested and proven by Rugged Ridge's engineering team and employees, you can trust that Rugged Ridge products are the perfect fit for your Jeep.

BUY WITH CONFIDENCE

We take pride in building quality products and back them up with a **minimum 5 Year Limited Warranty** so you can buy with confidence and have peace of mind. For more information on our warranties visit, www.omix-ada.com/warranties.

A FEW WORDS ABOUT PRODUCT SAFETY

The OMIX®, Rugged Ridge® and Alloy USA® brand products illustrated in this catalog are generally intended to increase the utility and enjoyment of your off-road capable Jeep® or street rod. We hope this catalog will help acquaint you with our featured products as well as the broader offerings in each of our product families. Before installation, please take a moment to review the safety information and installation instructions accompanying your product. Safety information for particular products is summarized in this catalog but is not intended as a substitute for your review and understanding of actual product instructions and warnings! Important safety information is generally preceded by one of three signal words indicating the relative risk of injury. The signal words mean:

⚠ WARNING

A hazardous situation which, if not avoided, could result in death or serious injury. **You can be killed or seriously hurt if you don't follow instructions.**

⚠ CAUTION

A hazardous situation which, if not avoided, could result in minor or moderate injury. **You can be moderately hurt and also may suffer property damage if you don't follow instructions.**

⚠ NOTICE

Careful attention is required to this instruction or operation but does not generally relate to personal injury. **Damage to your product or other property may result if you don't follow instructions in their entirety.**

We hope you enjoy your OMIX®, Rugged Ridge® and Alloy USA® purchases and are here to help if you have questions. See Customer Service contacts included with your Limited Warranty.

JL ARCUS™ BUMPERS

The Rugged Ridge Arcus Front Stubby Bumper for Wrangler JL is anything but your typical budget-minded bumper. The Arcus represents a daring design departure from the typical, with an alluring stamped-steel body usually reserved for bumpers costing twice the price. This patented design utilizes a high-strength 11-gauge steel shell surrounding a ¼-inch thick steel winch tray, capable of holding most model winches up to a 12.5k lb. rating (accepts Hawse or roller-style fairleads).

Wrangler JL	Part N ^o
Front Bumper	11549.04

Override (11540.61) sold separately.

Override (11540.62) sold separately.

RUGGED RIDGE HD BUMPERS

Rugged Ridge HD Series Bumpers are trail-tested, proven designs that pack a serious punch. Whether you prefer the narrow, agile angles of our HD Stubby Front Bumper or the burly look of the Full-Width, you will love the aggressive off-road presence they provide. Engineered to mount most any aftermarket winch for greater versatility and well-equipped to perform in the clutch with built-in jack lifting points at every corner and massive recovery hooks, each one dual-drilled to work with both ¾ and 7/8-inch shackles (shackles not included). We've even designed an HD Rear Bumper to go out back, for a highly-functional, total bumper package. Add a beautiful satin black powder coat finish and the confidence of our Limited 5 Year Warranty and the choice becomes clear. Rugged Ridge HD Bumpers are the best-built bumpers in their price class...or any class.

Wrangler JL/JK	Part N ^o
Full-Width Front Bumper	*11540.31
Stubby Front Bumper	11540.32
Rear Bumper	11540.36

*JL Wrangler with Rubicon flares will experience a small gap between the bumper and the flare.

Patent-pending windshield hinge mount keeps mirrors in place regardless of windshield position

TRAIL MIRRORS

Rugged Ridge Trail Mirrors provide a simple, bolt-on solution that is highly-functional, with a clean, modern design that looks great.

Wrangler JL	Part N°
Round	11025.23
Rectangular	11025.24
Round, Pair	11025.25
Rectangular, Pair	11025.26

JL TUBE DOORS

A stylish design that is meant to be seen, not heard. These Rugged Ridge tube doors are free from the dreaded rattling common with other tube doors. Larger diameter tubing, an innovative door latch, and adjustable hinges provide the best looking, best fitting tube door on the market. Patent pending.

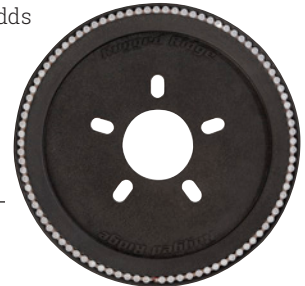

Wrangler JL	Part N°
Front, Pair	11509.13
Rear, Pair	11509.14
Front w/ Mirrors	11509.15

LED 3RD BRAKE LIGHT RING

The Third Brake Light LED Ring adds a surprisingly brilliant ring of torch-red LED's behind your spare tire- guaranteed to grab the full attention of all who are near. Patent pending.

Wrangler JL	Part N°
3rd Brake Light Ring	11585.06

STEEL TUBE FENDER FLARES

Rugged Ridge Tube Fenders were engineered for those die-hard few that love leaving the pavement behind but despise the cringe-worthy sound of tire meeting flare. Outfit your rig to increase your tire clearance, reduce those horrible churning noises and find a whole new unpolished persona.

Wrangler JL	Part N°
Front	11615.71
Rear	11615.72
Front and Rear	11615.73

ALUMINUM INNER FENDER LINERS

Rugged Ridge Aluminum Inner Fenders are a straight-forward and clean way to complete the look of your Wrangler JL without breaking the bank. Crafted from lightweight aluminum plate, brake-formed and engineered for a precise fit making it a direct replacement for the front factory liners.

Wrangler JL	Part N°
Front	11615.61

JL SNORKEL

We engineered the Rugged Ridge Snorkel System for Wrangler JL to be the best option on the market. We started with an aesthetic design inspired by the JL's fender vents, so that it looks more like a natural part of the vehicle. The low-mount intake is the focal part of the system. Also available is our high-mount ram intake. It mounts in minutes and pulls in fresh air from the top of the windshield for confident fording of rivers and streams. We've also designed an optional pre-filter element for use in the dustiest of desert conditions. A convenient manual drain valve at the lowest part of the system allows any negligible water migration to be drained from the system quickly and easily.

Wrangler JL	Part N ^o
Low/High Mount Snorkel System	17756.31
Low Mount	17756.35
High Mount Extension	17756.36
Ram Inlet	17756.37

JL LIGHT BRACKETS

Wrangler JL owners now have some clever and capable options when it comes to mounting auxiliary off-road lights. Rugged Ridge offers a Cowl Light Bar Bracket Set that mounts to the cowl directly behind the factory hood hinges, securely positioning any 40-inch LED light bar in the perfect spot for illuminating the blackest of trails. For those who prefer the versatility of smaller cube LEDs, our Cowl Cube Mounts mount on either side of the hood, using factory cowl hardware, and provides a staggered mounting platform for a pair of LED cubes. All JL Light Brackets are constructed of sturdy steel and are powder coated with a satin black finish for greater resistance to corrosion.

Cowl Light Bar Bracket	Part N ^o	Cowl Cube Mounts	Part N ^o
Satin Black, Set	11232.71	Satin Black, Inside, Pair	11232.72
		Satin Black, Outside, Pair	11232.73

JL RUBICON CHOP BRACKET

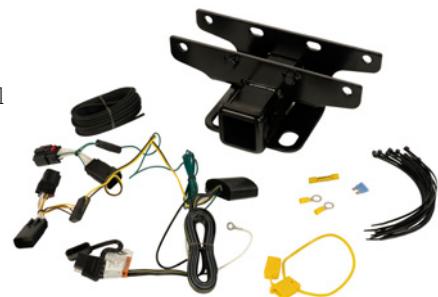

Modifying JL Rubicon flares for off-road is easy and the look is nothing short of heroic with the Rubicon Fender Chop Bracket Kit. By removing the bulky factory fender light assembly, you'll have greater clearance for oversized tires with nothing to get between you and that next obstacle. We've built-in bullet-style side marker and turn signal lights to ensure safe on-road operation too. Brackets come in pairs and feature a satin black powder coat finish.

Wrangler JL	Part N ^o
Satin Black, Pair	11640.92

2-INCH RECEIVER HITCH

Rugged Ridge proudly offers a 2-inch Receiver Hitch Assembly for Wrangler JL models. With a 3,500 lb. towing capacity and a 350 lb. tongue weight, you'll be equipped for getting your gear to wherever the adventure is.

Wrangler JL	Part N ^o
Receiver Hitch Kit	11580.57
Hitch	11580.11

JK XHD MODULAR BUMPERS

The XHD Bumper's modular design provides dozens of different looks and styles, you can build the exact bumper of your choice! All components are constructed of heavy-duty textured black powder coated steel. US Patent NO. 7,703,834 & 8,393,656 & 8,764,080

JK ALL TERRAIN MODULAR BUMPERS

Modeled after our XHD Modular Bumper System, but with the more budget-oriented consumer in mind. The All Terrain Modular Bumper System is built from black powder coated steel and has a renewed focus on style and functionality, allowing owners to design and build a bumper to fit their specific needs. Patent No. 7,703,834 & 8,393,656 & 8,764,080

Includes factory back up sensor provisions!

JL SPARTAN™ BUMPERS

The bumper engineered for the Jeep enthusiast that wants the look of a classic off-road style bumper without the extra weight and heavy price tag. The Spartan bumper is built from high-strength plate steel that utilizes fold & weld construction for greater structural integrity, precise fit and a high-quality appearance. It's available with standard or high clearance ends. Patent pending.

TREKKER WINCHES

The Rugged Ridge Trekker Series of electric recovery winches offer today's off-road enthusiast trail-proven reliability and impressive power, with the quality and features that ravage the competition. The brawn behind the Trekker Series lineup is the heavy duty 5.6 / 6.6 series-wound motor that delivers consistent pull strength through a bulletproof 3-stage planetary drive gear. A 212:1 gear ratio means you see quicker line speeds, getting you back to wheeling in record time. And since the real world is where these winches really shine, we equipped them to survive in the worst conditions imaginable. With an IP-68 waterproof rating, they are practically impervious to all the water, dirt and sand that leaves lesser winches in a billow of smoke. Trekker Series Winches are available with a handy wireless remote and 26-meter synthetic line or with a traditional steel cable and a weatherproof wired remote. Best of all, we back every one with an industry-leading five year limited warranty.

TRACTION RECOVERY KIT

We've made it possible to take traction with you, no matter where you go. Our Traction Recovery Kit features heavy-duty reinforced nylon traction boards, delivering essential grip on the slickest of surfaces. Sand, snow and mud are simply no match for the board's design, as the built-in cleats deliver a giant dose of traction when and where it's needed. The board is engineered to withstand pressures up to 20,000 lbs. and paired with a handy tri-fold shovel for ease of placement.

Universal	Part N°
Traction Boards and Shovel	15104.46

RECOVERY GEAR KIT

The Recovery Gear Kit includes everything you need to help your buddy next time he gets stuck in the mud. The durable carrying case is filled with our most popular recovery products to make sure you can get out of those trouble spots quickly and safely.

EXO-TOP™

The Exo-Top™ takes convenience, function, and style to new levels by allowing Jeep® owners the ability of conveniently lowering, raising or removing the Jeep's soft top without having to unload gear from the roof-rack. Integrated into the 300-lb capacity roof rack is an advanced, externally suspended, soft-top design that fastens using a series of Velcro straps along the perimeter bars of the roof rack. The Exo-Top™ features a direct bolt-on design with no drilling required for installation. US Patent No. 9,376,002;D748,038

07-18 Wrangler JK

Part №

4-Door	13516.02
2-Door	13516.01

07-08 models with a plastic header are recommended to upgrade to № 13516.10 header for best results.

SHERPA ROOF RACK SYSTEM

The Sherpa Roof Rack System is an easy bolt-on solution for the Wrangler JK. The unique tilt feature allows you to access your soft or hard top with ease. The rack has a 300-lb static weight rating and the forward mounting bar acts as an integrated light bar.

AVAILABLE SUMMER 2019

JL SNORKEL

Drawing from our experience with the JK snorkel, we engineered the Rugged Ridge XHD Snorkel System for Wrangler JL to be the best option on the market. We started with an aesthetic design inspired by the JL's fender vents, so that it looks more like a natural part of the vehicle. The low-mount intake is the focal part of the system, and likely the component that will get the most use. Also available is our high-mount ram intake. It mounts in minutes and pulls in fresh air from the top of the windshield, high above the water line, for confident fording of rivers and streams. We've even designed an optional pre-filter element for use in the dustiest of desert conditions. A convenient manual drain valve at the lowest part of the system allows any negligible water migration to be drained from the system quickly and easily.

Wrangler JL	Part N°
Low/High Mount Snorkel System	17756.31
Low Mount	17756.35
High Mount Extension	17756.36
Ram Inlet	17756.37

JK XHD MODULAR SNORKEL

The XHD Modular Snorkel System is the most versatile snorkel system on the market. Designed to protect your vehicle from accidental water ingestion, the snorkel gives the user the ability to adapt it to changing conditions. The main snorkel body features a built-in manual drain valve to release any moisture that might enter it. The entire system installs with only minor modification to the JK fender and, unlike other snorkel systems, does not require any cutting to the exterior sheet metal. Patent D687,071 / D687,072

STAINLESS STEEL AXLE-BACK EXHAUST SYSTEM

Open up your Wrangler's exhaust with this dual exhaust system. The 2 1/4-inch mandrel bent pipes give hot exhaust gases a smooth exit without the restrictions found in crush-bent pipes. The additional exhaust flow will increase the horsepower and torque of your 3.8L or 3.6L engine. This is a bolt-on system that installs after the catalytic converter to keep your emissions legal.

07-18 Wrangler JK	Part Nº
Polished	17606.75
Black	17606.77

JK HEAVY DUTY OFF-ROAD MUFFLER

Designed to deliver a more aggressive tone than the stock muffler, the off-road muffler produces a deep tone throughout the RPM range. It sits as high as possible for better ground clearance. The exhaust routing is designed to be protected by the Jeep's frame to reduce trail damage.

07-18 Wrangler JK	Part Nº
Off-Road Muffler	17606.70

ALL TERRAIN FLOOR LINERS

Precision engineering, using state of the art technology, ensures an exact fit to the shape and contour of your vehicle's floor. The deeply molded chevron-shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean. The liners are high pressure injection molded from OE-quality thermoplastic that looks and feels like rubber and provides a nonslip surface. US Patents D627,285 & 8,163,369

Rolled reinforced edges provide added strength

Chevron tread channels liquid & dirt away from shoes & clothing

High perimeter walls provide maximum protection & retention

Self-sealing floor hook attachments keep moisture out

Our floor liners utilize nibbed bottoms and floor hooks to keep them safely in place.

CB RADIO MOUNT

The CB Radio Mount conveniently mounts over the rearview mirror for an easy reach. Made from durable black powder coated steel, now your CB is attached high and within reach without having to take your eyes off the road or trail.

ALLOY USA ALUMINUM DIFFERENTIAL COVERS

ALLOY USA Aluminum Differential Covers are constructed from A356-T6 cast aluminum for strong impact resistance. Each cover features a precision machined sealing surface, allowing gaskets or RTV sealant to be used for a leak-free seal. These covers also come complete with a magnetic drain plug and a specially designed dipstick bolt to help avoid under or overfilling their differentials. Patent No. D798,906

JL ELITE TAIL LIGHT GUARD

The Wrangler JL has set itself apart from every Jeep that has come before, with distinctive styling and refinements at every turn. The unique shape and design of the tail lights is one of the most iconic symbols of the JL, and now you can preserve your tail lights while accenting what it is that makes them so special. Rugged Ridge Elite Tail Light Guards encase your light housing inside a cast aluminum shell, keeping them safe from bumps and blows. The Elite Guards ingenious 2-piece design offers protection in every direction, while accenting the lights original shape and trademark character. Cleverly concealed hardware makes the Elite Tail Light Guards appear to be part of the original design, and not an aftermarket afterthought. Each guard is finished with a premium satin black powder coat for an OE quality appearance and a long life. Works with OE LED tail lights only and works with factory blind spot monitoring systems. US Patent 10059251
